Revision 7.0, Oct. 2004

Table of Contents

1	FOR WINDOWS NT/2000/XP	3
2	FOR LINUX	4
3	FOR OTHER PLATFORMS.....	5

1 For Windows NT/2000/XP

1. Download the windows installation package from <http://www.etrainingserver.com/v9s/download.php>
2. User WinZip or WinRar to extract the downloaded file.
3. Double click to run the extracted file **stets.exe**, and follow the instructions in the application to install the server
4. Open **Windows Start Menu** and click the **Programs** menu item.
5. Click the menu items under folder **SmileTiger eTraining Server** to manage the server.

2 For Linux

1. If MySQL has not been installed in your Linux server, download MySQL from <http://www.mysql.com> and install it in your server.
2. Create a database named **stets** in your MySQL server
3. Download the Linux installation package from <http://www.etrainingserver.com/v9s/download.php>
4. Upload the downloaded file to your Linux server
5. Extract the uploaded file:

```
gunzip -f stets70linux.tar.gz
tar -xvf stets70linux.tar
```
6. Edit the database account username and password tags in file **stets70linux/wvhome/default/dbmgr.ini**
7. Start the server:

```
cd stets70linux
./run.sh&
```

3 For Other Platforms

Please contact service@smiletiger.com for the installation packages for other platforms.
